VINSON L. COOK, *Asst. Secretary and Asst. Treasurer*
JOSEPH E. SAUCIER, *Manager of Industrial Development*
HERBERT B. BAINBRIDGE, *Real Estate Agent*
FRANK M. COUCH, *Manager Data Processing*
HEYMAN AND SIZEMORE, *General Counsel*

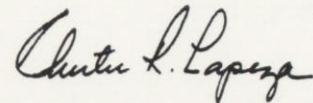

H.F. NOV 18 1970

TO OUR SHAREHOLDERS:

During the year 1969, your railroad continued to grow economically and has become better able to serve its customers. This is evidenced by the substantial increase in net income which aggregated \$289,759.60 for the year.

Among the achievements for the year were our successful efforts in obtaining approval to discontinue two nonproductive passenger trains. These trains were last operated on January 7, 1970, and the economic effect is now being realized and will reflect in the earnings in the coming year.

The addition of two 3000 H.P. diesel electric locomotives in 1969, together with the continuance of our welded rail program on the mainline, permits us to look forward to the future with confidence. The loyalty, interest and endeavors of the capable staff of officers and employees, as in the past, will play a great part in that future. We offer our sincere thanks for their contribution in 1969.

President and General Manager

Atlanta, Georgia

ACCOUNTANTS' OPINION

Atlanta and West Point Rail Road Company:

We have examined the balance sheet of Atlanta and West Point Rail Road Company as of December 31, 1969 and the related statements of income and retained income for the year then ended. Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

The Company maintains its accounts in conformity with the Uniform System of Accounts for Railroad Companies prescribed by the Interstate Commerce Commission and the accompanying financial statements have been prepared in accordance therewith. As explained in Note 1, the provisions of such system vary in certain respects from generally accepted accounting principles.

In our opinion, with the exception referred to in the preceding paragraph, the accompanying financial statements present fairly the financial position of the Company at December 31, 1969 and the results of its operations for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

STATEMENT OF RETAINED INCOME

CREDITS

Retained income, January 1, 1969	\$ 3,618,866.39
Net income for year	289,759.60
Total	3,908,625.99

DEBITS

Dividends to shareholders:		
\$2 a share paid August 1, 1969	\$49,272.00	
\$3 a share paid December 5, 1969	73,908.00	123,180.00
Retained income, December 31, 1969		\$ 3,785,445.99

NOTES TO FINANCIAL STATEMENTS

1. The provisions of the Uniform System of Accounts for Railroad Companies prescribed by the Interstate Commerce Commission vary from generally accepted accounting principles in that, under the Uniform System, no accounting recognition is given to the possible effect on income taxes in future years of current reductions in income taxes resulting from the deductions (net) for amortization of property for income tax purposes in excess of the amounts recorded in the accounts. The net amount of such reductions in income taxes included in retained income at December 31, 1969 was \$341,000. Depreciation recorded in the accounts on fully amortized property has effected reversals of these income tax reductions; in 1969, the amount of such reversals was \$27,000.

Income taxes for 1969 have been reduced by approximately \$53,000 because of various other differences between pretax accounting income and taxable income.

Operating loss carry forwards of approximately \$30,000 were available at December 31, 1969 as deductions from taxable income of future years. Unused investment tax credits amounted to approximately \$239,000 at December 31, 1969; none was used in 1969 or 1968.

2. The Company has an unfunded, non-contributory pension plan for officers and supervisory employees but reserves the right to discontinue the plan at any time. Related charges to operating expenses in 1969 and 1968, representing amounts paid to retired employees, were approximately \$21,000 and \$18,000, respectively. The effect on the accompanying financial statements of the amounts required to provide for current and past service pension costs would not have been material.
3. The Company carries a service interruption policy under which it will be entitled to indemnity for certain work stoppage losses. In the event such losses are sustained by other railroads holding similar policies, the Company may be obligated to pay additional premiums, subject to a maximum premium of \$57,000.
4. Following are earnings per share amounts:

	1969	1968
Ordinary income	\$ 7.50	\$ 3.34
Extraordinary items	4.26	-7.04
